MinerU Local Deployment Test

Section 1: Introduction

This document verifies that MinerU can parse text, formulas and tables locally.

Section 2: Formula

The quadratic formula is x = (-b +/- sqrt(b^2 - 4ac)) / (2a).

Section 3: Table

Name	City	Job
Zhang San	Beijing	Engineer
Li Si	Shanghai	Designer

Section 4: Conclusion

If all content above is extracted correctly, the deployment works.
